

GINBRALTAR

LUXURY SPANISH CRAFT PREMIUM GIN

Ginbraltar is the product of four distillations and a wise combination of eleven botanicals. It has a refreshing aroma – subtle and unexpected – of sparkling citrus, coriander and ginger, and makes way for spices like nutmeg, cloves, allspice and cardamom. The intense and balanced flavors blend perfectly with the classic touch of juniper and angelica root, leaving a refreshing taste of eucalyptus in the mouth. Ginbraltar is 100% Spanish.

EUCALYPTUS

Eucalyptus leaves have always been linked with medicinal uses. Its pleasant aroma and taste is the secret and unexpected element of Ginbraltar gin and is widely appreciated by those who try it. Eucalyptus offers a refreshing and unmistakable aftertaste and is a key element to what makes Ginbraltar so pleasing to the palate.
