

# Jean Cavé

## Armagnac, France

Henry Cavé is the fourth generation of the family to run this distillery since it opened in 1883. With Henry at the helm, the distillery benefits from generations of knowledge, as well as a shared sense of tradition and purpose. This has allowed them to retain continuity and an enduring sense of place. Today, with more than one hundred thirty vintages of their Armagnac produced, they have built up a stock of old bottles that few other houses can match and can offer a wide range of bottlings that will delight newcomers to this spirit, as well as delight serious collectors and aficionados.
