

The Secret to

NEWBLOOD

NON-ALC ROSE

Newblood Non-Alcoholic Wines are triple distilled - a deliberately slow process to remove the alcohol at low temps, and to help retain the maximum flavors and enhance the varietal bouquet.

We use high quality family estate wine as the base material.

OUR COMMITMENT TO SUSTAINABILITY IS CONSIDERABLE:

- We use sustainable farming practices as well as winemaking.
- We recycle our waste water and use it for the winery and our gardens.
- We have solar power to most of the winery.
- We are committed to carbon neutrality by 2030.

WHY CHOOSE NEWBLOOD NON-ALC WINE?

- **NO MORE FOMO (FEAR OF MISSING OUT):** Join the Dry January trend and still enjoy the experience.
- **STAY IN CONTROL:** With Newblood, you can have a great time while remaining alcohol-free.
- Our wines contain no added sugars and are low in calories, making them a guilt-free treat.
- Alcohol free wine has the same heart health benefits as the real thing!

ROSE:

Our non-alcoholic Rosé delivers the same charm, with vibrant flavors of strawberries, watermelon, and a hint of citrus.

Perfect for celebrating life's special moments or adding a touch of elegance to your everyday.
